All movements will be held strictly to the limitations checked on the back of this form.

## LIMITATIONS ON THE USE OF A SPECIAL HAULING PERMIT

- 1.) The granting of a permit does not guarantee that the load described can be moved without damage to the pavement or structures.
- 2.) The Owner will be held liable for any damage caused by the movement. The County assumes no responsibility for damage to the Owner's equipment or load being moved due to any pavement or structure failure. The Owner agrees to compensate Columbiana County for any damage to the roadway or road structures and also hold Columbiana County harmless from all claims, damages or proceedings of any kind and from all responsibility for personal injury or property damages (public or private) caused directly or indirectly as a result of the transportation of listed vehicle(s) or load(s).
- 3.) The applicant must file a certificate of his liability insurance and/or a bond showing that he has procured adequate coverage to meet the provisions of section 2.
- 4.) The permit shall be in the possession of the driver at all times during the progress of the transportation and will be shown on demand to any police officer, state highway patrolman, or employee of the County.
- 5.) The permission granted restricts the movement of the vehicle(s) or load(s) to the highways specified between the points designated and within the time allotted.
- 6.) No vehicle(s) or load(s) in excess of the legal limits prescribed by law shall be permitted on the highway on Saturdays, Sundays or during the period beginning at 12 noon on the day preceding and continuing until sunrise on the day following a legal holiday.
- 7.) Movements under a special hauling permit shall be made during daylight hours only and in such a manner to impede to the least possible extent the normal highway traffic.
- 8.) No vehicle(s) or load(s) being transported under a special highway permit shall be left parked on the roadway either day or night except in the case of an emergency, in which case adequate protection shall be provided for the traveling public. The vehicle(s) shall not be loaded or unloaded within the limits of the highway.
- 9.) The operator of the vehicle must comply with all laws, rules, or regulations covering the movement of traffic over highways and streets.
- 10.) All construction equipment and other machinery shall have attached thereto a plate showing the manufacturer's name and model number.
- 11.) A permit is void any time road, weather or traffic conditions make travel unsafe.
- 12.) Reductions in legal weight posted on roadways or bridges must be obeyed and the permit shall not give the transportation owner or driver authority to violate said reductions.
- 13.) A permit shall not be issued for built-up loads that are divisible into legal loads.
- 14.) Oversize or overweight loads shall be operated or moved at such speeds and in such manner as to cause a minimum of interference with other traffic and minimum impact stresses on structures and pavements. No such movement is to exceed 40 mile per hour at any time.
- 15.) Loads having extremely large dimensions shall require additional protective measures when necessary for the safeguarding of other traffic. Due regard shall be taken of traffic in both directions and every possible effort shall be made to prevent traffic congestion. One or more flagmen, or pilot car may be required.
- 16.) Non-compliance with the general or special provisions of this permit, exceeding the weights or dimensions granted, or operating on dates or upon highways other than assigned shall render the permit null and void and the operator of the vehicle subject to arrest, as provided in sections 5577.02 to 5577.05 inclusive of the Ohio Revised Code.

### SPECIAL PROVISIONS (Required when marked)

- 1.) Display red flag not less than 16' square and fastened to staffs of sufficient length so as to permit the flags to move freely of any obstruction, located as follows: One at each end of the front bumper, one at each of the four trailer corners, and if any part of the load is wider than the trailer one at the widest point of the load, all flags shall be erected at a 45 degree angle.
- 2.) Flagman to flag traffic on turning movements or at any time any part of the vehicle is over the centerline of the highway.
- 3.) Flagman to accompany the operator to protect traffic.
- 4.) Flagman to ride on traffic side of the load.
- 5.) Flagman to travel in lead vehicle, sufficiently ahead to warn approaching traffic.
- 6.) Flagman must be ahead of warn approaching traffic when the sight distance is limited to 500 feet or less.
- 7.) Escort vehicle with proper signs attached to proceed 500 feet in advance of the vehicle or load.
- 8.) Escort vehicle with proper signs attached to follow 500 feet behind the vehicle or load.
- 9.) Long load signs to be attached to the front and rear of the vehicle or load.
- 10.) Wide load signs attached to the front and rear of the vehicle or load.

I \_\_\_\_\_ Do hereby swear that I am the applicant or a legally authorized representative and that I have read and understand the above limitations and special provisions. Further the information listed on the front of the permit is correct and true to the best of my knowledge.
